LIVE STAGE EXPERIENCE

MIND READING MEETS RUBIK'S CUBE ART

A 15 to 30 minute stage experience that begins with interactive mentalism and transitions into the Rubik's Cube segment involving the audience and selected dignitaries. For the finale, the Chief Guest mixes the final cubes before placing them into the missing spaces of the artwork completing the mosaic and setting up the grand reveal.

The mosaic can either be created live on stage during the performance or pre-created and dramatically unveiled as part of the finale.
